NUESTRA FILOSOFÍA

Conformado por un equipo apasionado y con una vasta experiencia en el sector de los productos sanitarios para la construcción, trabajamos para brindar las mejores soluciones en cada proyecto y superar las expectativas de nuestros clientes gracias al conocimiento de los desafíos y oportunidades del sector.

ASESORAMIENTO PERSONALIZADO

Sea cual sea su proyecto, nuestro equipo estará encantado de ofrecerle la mejor solución para sus necesidades.

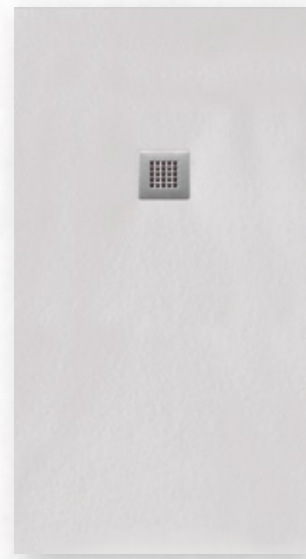

OUR PHILOSOPHY

A passionate team with extensive experience in the building sanitaryware sector, we work to provide the best solutions for each project and exceed our customers' expectations by understanding the challenges and opportunities in the sector.

PERSONALIZED ADVICE

Whatever your project, our team will be happy to offer you the best solution for your needs, the challenges and opportunities in the sector.

PLATOS DE DUCHA SHOWER STRAY

CALIDAD Y DURABILIDAD

Nuestros productos están fabricados para resistir el paso del tiempo, tanto por la utilización de materiales de primera calidad como por su belleza perdurable en el tiempo, logrando funcionalidad y estética para crear un ambiente único en su hogar.

MENOR PESO

Nuestros platos de ducha de resina representan una excelente alternativa en el mercado actual gracias a su menor peso en comparación con los platos de ducha tradicionales. En un entorno cada vez más exigente, donde el peso de los materiales juega un papel crucial, nuestros productos ofrecen ventajas significativas. Reducir el peso no solo disminuye el riesgo de lesiones durante la manipulación e instalación, sino que también optimiza los costos de mano de obra y transporte. Con esta solución, nos adaptamos a las necesidades del mercado, brindando calidad, funcionalidad y seguridad en cada detalle.

QUALITY AND DURABILITY

Our products are made to stand the test of time, both for the use of top quality materials and for their enduring beauty, achieving functionality and aesthetics to create a unique atmosphere in your home.

LESS WEIGHT

Our resin shower trays represent an excellent alternative in today's market thanks to their lighter weight compared to traditional shower trays. In an increasingly demanding environment, where the weight of materials plays a crucial role, our products offer significant advantages. Reducing weight not only reduces the risk of injury during handling and installation, but also optimises labour and transport costs. With this solution, we adapt to the needs of the market, providing quality, functionality and safety in every detail.

Rock

ROCK La evolución del diseño tradicional. Su formato innovador, combinado con una válvula estratégicamente ubicada, asegura una experiencia más cómoda en la ducha, evitando el contacto directo con la rejilla. Además, su sistema de evacuación optimizado, con válvula de doble vía, garantiza un flujo eficiente de agua. Su diseño versátil permite cortes en tres de sus lados, adaptándose a cualquier espacio.

ROCK The evolution of traditional design. Its innovative format, combined with a strategically placed valve, ensures a more comfortable showering experience, avoiding direct contact with the grate. In addition, its optimised evacuation system, with a two-way valve, guarantees an efficient water flow. Its versatile design allows cut-outs on three sides, adapting to any space.

Baltic

BALTIC Trazos rectos y perfectamente definidos, aporta un carácter moderno en las líneas de diseño del baño.

La serie Baltic tiene más profundidad, lo que aumenta considerablemente la estanqueidad.

La situación del desagüe favorece el flujo del agua.

BALTIC Straight and perfectly defined lines, it brings a modern character to the design lines of the bathroom.

The Baltic Series has a greater depth, which considerably increases watertightness.

The location of the drain favours the flow of water.
